## LANSSC8R2 & R4

## **Installation Instructions**

Lankota GENERATION II Stalk Stomper® Mounting Kit for JD® C-Series 8 Row Corn Heads

2 & 4-Row Coverage

## 

270 West Park Avenue Huron, SD 57350 866-526-5682

## Numerical Parts List

Part Numbers	Description	Qty
LANSSB77GRN	77" Stalk Stomper <sup>®</sup> Tool Bar	2
LANSS600EF	Head End Mount	2
LANSS615M	2015+ Beam Mount	2
LANSS759	Flip-up Stomper Mount	2 or 4
LANSS600MBH	Bag of Hardware	2
LAN600UBOLT	U-Bolt 5/8" x 2.625" ID x 3.75" Length	2
LAN079UBOLT	U-Bolt 5/8" x 5.125" ID x 6.50" Length	2
LAN619UBOLT	U-Bolt 5/8" x 6.188" ID x 7.88" Length	2
LAN690830	5/8" Serrated Flange Nut	8
LANSS650FCBH	Bag of Hardware	1
LAN600UBOLT	U-Bolt 5/8" x 2.625" ID x 3.75" Length	4
LAN690830	5/8" Serrated Flange Nut	8
LAN3722	1/2" Serrated Flange Nut	4
LANF1ERQ	1/2" x 2" Carriage Bolt	4
LANSS668BH	Bag of Hardware	2 or 4
LAN600UBOLT	U-Bolt 5/8" x 2.625" ID x 3.75" Length	2
LAN690830	5/8" Serrated Flange Nut	4
LANFNXC1	1/2" Flanged Nyloc Nut	1
LANFNHVK	1/2" x 2.50" Serrated Flange Bolt	1

## Pictorial Parts List

### Preparation

- **1.** Attach desired header to the combine. Lock the head to the combine.
- 2. Raise the head off the ground and lower the safety stop on the feeder house cylinder.
- 3. Set the parking brake on the combine.
- 4. Turn off the combine engine and remove the key.

## Stalk Stomper Disclaimer

#### Stalk Stomper Disclaimer

The most effective use of the Lankota Stalk Stomper<sup>®</sup> is achieved by adjusting the stomper pad so that when the corn head is at its normal cutting height, the pad of the shoe is 1" above the ground. Over compression of the spring can shorten the life of the stomper spring, increase wear on the poly liner, and may result in undue damage NOT covered by *Lankota's Limited Warranty*.

#### **Stalk Stomper Height Adjustment**

To adjust Lankota Stalk Stomper shoes, watch this video found on YouTube: https://youtu.be/Ukcq7NrCgpQ

and the Lankota website: https://lankota.com/stalk-stompers.html

or scan the QR code to the right with a smart phone.

- 1. Set the desired header on a suitable header trailer.
- 2. Release the header from the combine and back it away.

#### Refer to Figures 1—3

- 1. Mount the LANSS600EF brackets to the ends of the head.
- 2. Remove the factory M12 carriage bolts and replace with the  $1/2'' \times 1.5''$  carriage bolts and nuts from the LANSS600IBH's.
- 3. Affix the brackets, but leave the 1/2" hardware loose enough to slide/straighten later.
- 4. Hang a 600UBOLT in each for toolbar install.

Figure 2

Figure 3

#### Refer to Figures 4 & 5

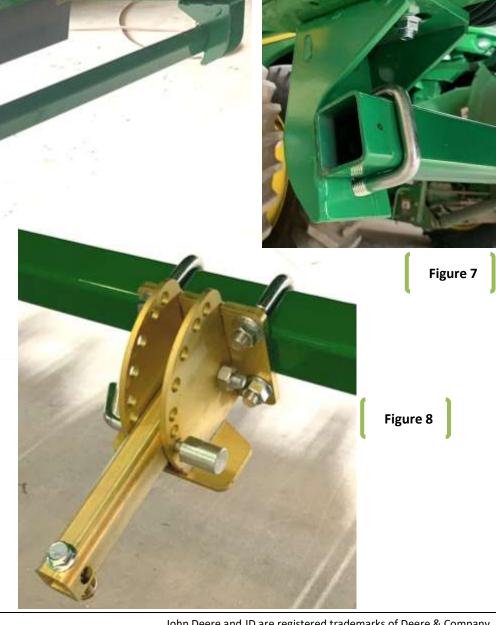

- 5. Install a LANSS615M on the end of each side of the head; use the hardware in LANSS600MBH's.
- 6. Check the OEM foot stand pin—the handle needs to be towards the center of the head.
- 7. Slide the mount as close to the leg as possible and tighten the hardware.

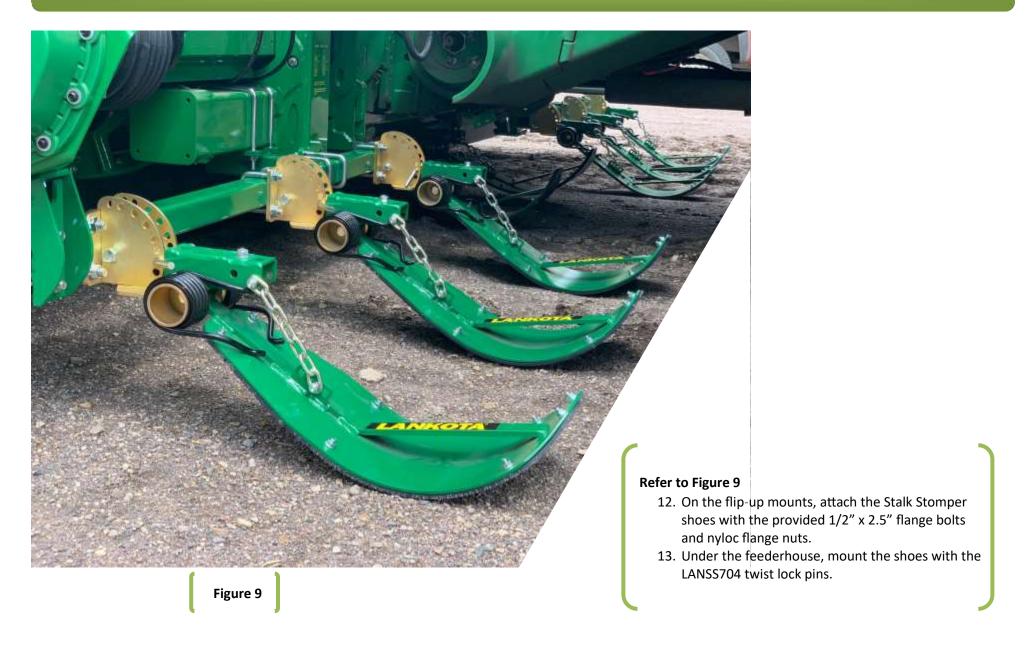

Figure 6

#### Refer to Figures 6–8

- 8. Mount the 77" toolbars to the brackets with the 600UBOLTS and flange nuts in the bags of hardware.
- 9. Set the toolbar outer end flush with the LANSS600EF.
- 10. Square the toolbar with the head and tighten the 1/2" bolts in the end mounts.
- 11. Mount the LANSS759 flip-ups to the toolbar with the hardware in the LANSS668BH's. Ensure they are aligned with the row units.

# LANSS704 Instructions

Lankota 1/2" Twist-Lock Pin

The LANSS704 is a patent pending pin designed by Lankota Inc. for the harsh environment of the field. The simple push, twist and release design ensures that the cap and pin cannot be separated by vibration or debris.

The pin and the cap

For any questions, please contact Lankota.

## Removing LANSS704

Step 2: Twist cap 90° left or right.

Step 1: Push the

cap in and hold.

Step 3: Slide the cap off the pin.

## Installing LANSS704

Step 1: Align the cap retaining pin with the open groove and push on.

Step 2: Twist cap 90° left or right.

Step 3: Release the cap and ensure it is secure.
